

**Service Master of Durham Ontario
Paul Horning;**

Dear Paul,

We have moved into a home that the previous owners were heavy smokers.
We had a professional painter come in.

We had the carpets steam cleaned by a reputable co., and the hardwood floors cleaned.

The smell of smoke still lingered heavily in the air.

Thank goodness you provided us with the Hydroxyl Odor Processor. We have had this machine operating for the last 48 hours and the house is now odor free.

We would highly recommend this machine to eliminate smoke and other nasty smells.

Thank you again.
